Subject: Expression of Interest to undertake the responsibility of providing quality Job-Placement opportunities to students from your Skill Development Training organization across West Bengal & North-East States of India.

Dear Mr. Gupta,

First of all, I would like to convey my heartfelt gratitude and appreciation for you time & consideration. It was a real pleasure on my part to discuss with you in person and it was an invigorating experience in getting to know in details from you about the various revered developmental initiatives your organization is involved with in such a vigorous fashion for the last couple of years & also in the imminent future.

I would like to state that our organization "Access To Success Research & Training Institute" have consciously undertaken the responsibility of enhancing employment through an assortment of Soft-skill programs, Skill development ventures and Job Placement initiative in both urban & rural fronts across several districts based in Assam & West Bengal. Our primary emphasis is on creating local resources by increasing the capability and competence of the local youth through effective Skill based Vocational Training & Job-Placement programs in the afore-mentioned states. Since your organization has been stridently involved in Skill Based Vocational Training across the states of West Bengal & entire North-Eastern States, we believe it's time for us to come together and work out a plan whereby we can provide ample job placement opportunities for the well-trained students of your organization.

I believe that the association of our organization with your revered organization "Swanirvar Charitable Trust" is going to open up rewarding possibilities for both of us and this venture will not only cater to our need-aspect but also facilitate to expand the Job Placement Band-Width of your organization, initially for Assam & West Bengal and if required for the rest of the states in North-East India at a later point of time.

I can assure you that we will engage in this association with your venerated organization with paramount sincerity and we will strive hard to adopt a nurturing and holistic approach towards job placement of the candidates. Please send across the terms of collaboration & the conditions of revenue-sharing which you have in mind related to these kinds of training programs so that we could possibly work out the MOU agreement at the earliest.

In the upcoming 6 months we are going to need a pool of around 600-800 candidates, well versed in communication skills and with a desire to excel in their professional career path.
